

# COVID-19 and Fatal Sepsis Caused by Hypervirulent *Klebsiella pneumoniae*, Japan, 2020

## Appendix

**Appendix Figure.** Contigs of FUJ01174 with high similarity to the nucleotide sequences of pLVPK plasmid (AY378100.1) were identified with BLASTn search. Pairwise comparison of contigs of FUJ01174 and pLVPK was performed with Artemis Comparison Tool (<https://www.sanger.ac.uk/tool/artemis-comparison-tool-act>).
