Prospective Multicenter Surveillance of Non-*H. pylori* *Helicobacter* Infections during Medical Checkups, Japan, 2022

Appendix

Appendix Table. Endoscopic findings in NHPH-infected patients*

Patient	Age, y/sex	NHPH spp.	Type of gastritis				Site of gastritis				RAC		
			White marbled appearance	Crack-like mucosa	Nodular gastritis	Spotty redness	Pyloric canal†	Pyloric antrum	Glandular border around angulus	Gastric body, middle–upper	Pyloric canal, antrum, and angulus	Gastric body, lower–middle	Gastric body, upper
1	49/M	<i>Helicobacter suis</i>	+	+	+	+	–	+	+	–	–	+	+
2	65/M	<i>H. suis</i>	–	+	–	–	+	+	+	–	–	+	+
3	35/M	<i>H. suis</i>	+	+	+	–	+	+	+	–	–	+	+
4	51/M	<i>H. suis</i>	–	+	–	+	–	+	+	–	–	+	+
5	39/M	<i>H. suis</i>	+	–	–	+	–	+	+	+	–	–	–
6	39/M	<i>H. suis</i>	+	+	+	–	+	+	+	–	–	+	+

Patient	Age, y/sex	NHPH spp.	Type of gastritis				Site of gastritis				RAC		
			White marbled appearance	Crack- like mucosa	Nodular gastritis	Spotty redness	Pyloric canal†	Pyloric antrum	Glandular border around angulus	Gastric body, middle–upper	Pyloric canal, antrum, and angulus	Gastric body, lower–middle	Gastric body, upper
7	59/M	<i>H. suis</i>	+	+	–	–	–	+	+	–	–	+	+
8	47/M	<i>H. suis</i>	+	+	+	–	+	+	+	–	–	+	+
9	45/M	<i>H. suis</i>	+	+	+	–	+	+	+	–	–	+	+

18	66/F	non- <i>H. suis</i>	–	+‡	+	+	–	+	+	+	–	+	+
19	44/M	non- <i>H. suis</i>	–	–	–	+	–	+	+	–	–	+	+
20	63/F	non- <i>H. suis</i>	–	–	+	–	–	+	+	–	–	+	+

*NHPH, non-*H. pylori Helicobacter*; RAC, regular arrangement of the collecting venules; +, positive; –, negative.

†Site was within 3 cm of the pyloric ring,

‡Patient used proton pump inhibitor.

Appendix Figure 1. Definitions of stomach regions.

Appendix Figure 2. Differences in gastritis progression between *Helicobacter pylori* infection and NHPH species infections. NHPH, non-*H. pylori* *Helicobacter*; RAC, regular arrangement of the collecting venules; +, positive; -, negative.
