

# RECOGNIZE ILL TRAVELER

- Look for or ask about Ebola symptoms.

# ISOLATE

- Separate the ill traveler from others to the extent possible.
- **If at gate** and having close contact (within one meter) with the ill traveler, use appropriate personal protective equipment such as face mask, gloves, and face shield or goggles.
- **If during flight** and having close contact (within one meter) with the ill traveler, use universal precaution kit.

# NOTIFY

- **If at gate**, follow your airline or airport's procedures to request a medical evaluation or assistance. A traveler may be denied boarding.
- **If during flight**, pilot reports to Air Traffic Control per ICAO requirement.

# GIVE SUPPORT

- Follow instructions from your airline or public health authority.
